### Improved and convenient vaccination services

Innovative and modern solution service for mobile vaccination needs, the Haier Biomedical comprehensive mobile solution is fitted with critical medical equipment generally found in a clinic.

### Improve the access to immunization services

The mobile vaccination platform has extended its coverage to more remote mountainous areas and villages.

### Promote and improve the equity in immunization services

Improve the quality of health services for people in remote, rural and disaster-hit areas, and ensure that children in these regions as well as migrant children receive the same medical treatment as urban children, thus promoting fairness in immunization services.

### Guarantee the accuracy and immediate reporting of data and information remotely

Digital inoculation management. Records of the whole process are traceable. The inoculation data is connected with the disease control system in real time to ensure the accuracy and timeliness of the information.
